PVRES joystick

PVRES product image

General

PVRES can be used individually or with PVRES accessories built together to form a complete operating panel. PVRES is particularly suited to panel mounting and characterized by:

- finger-tip control
- small dimensions
- low weight
- built-in flow regulation
- accessories such as emergency stop and lamps (see [PVRES accessories](#) on page 11)

Two proportional functions

PVRES is supplied with one or two potentiometers. It is thus possible to regulate one function, or two functions at the same time.

155B167.10

155B168.10

155B169.10

Flow adjustment

Two further adjustments per function are built into PVRES. Independently of each other, these limit the signal voltage (US) and thereby the flow from proportional valve ports A and B without the movement of the remote control lever being limited. The oil flow can be infinitely reduced down to 25% of maximum flow.

On-off function

Instead of the proportional functions, PVRES can be supplied with built-in switches. The contact functions can be either normally "ON" or normally "OFF" in neutral position.

Technical data

Supply voltage	U_{DC}	11- 30 U_{DC}
	Max. ripple	5%
Current consumption		< 80 mA
Max. force		50 N [11.24 lbf]
Output voltage (US)	U_S	0.25 → 0.75
	U_{DC}	
Neutral voltage (US)	U_S	0.5
	U_{DC}	
Output signal	Max. load	Two parallel connected PVEs
	Min. load impedance to $0,5 \cdot U_{DC}$	6 k Ω
Signal current max.	$U_{DC} = 12\text{ V}$	$\pm 0.6\text{ mA}$ (resistive)
	$U_{DC} = 24\text{ V}$	$\pm 1.2\text{ mA}$
Neutral position switch max. current	$U_{DC} = 12\text{ V}$	2 A
	$U_{DC} = 24\text{ V}$	1 A
On - off - on switch max. current	$U_{DC} = 12\text{ V}$	0.7 A
	$U_{DC} = 24\text{ V}$	0.35 A
Ambient temperature		- 30 to + 60°C [-22 to 140°F]
Enclosure to IEC 529	Over mounting flange	IP 44
	Under mounting flange	IP 23

PVRE and PVRET must be connected to supply voltage at the same point as PVE.

PVRES accessories

PVRES accessories image

General

PVRES accessories meet the demand for simple installation, monitoring and safety.

They also offer the possibility of mounting other components in connection with PVRES where uniform design is desirable.

Emergency stop module

The module contains an emergency stop switch of the impact key type $I_{NOM} = 10\text{ A}$

155B171.10

Lamp module

The module contains a green lamp.
12 V and 24 V bulbs are included.

155B172.10

Spacing and mounting modules

The modules are used between PVRES remote control units either as empty spacer modules or as mounting modules for switches, lamp indicators, starting keys, etc. The modules are available in widths 40 mm and 80 mm.

155B173.10

155B174.10

Panel mounting rings

Panel mounting rings 40 mm and 80 mm are available for PVRES modules.

155B470.10

PVRES accessories

PG 11 Screwed Cable Entry

PG screwed cable entry and locknut, suitable for all PVRES modules.

Code numbers, dimensions, and weight

Type	Symbol	Code number	Dimension mm [in]	Weight kg [lb]
Lamp module	 155B172.10	155B4213	40 x 80 [1.57 x 3.15]	0.22 [0.48]
Emergency stop	 155B171.10	155B4216	80 x 80 [3.15 x 3.15]	0.33 [0.73]
Spacer and mounting module	 155B173.10	155B4214	40 x 80 [1.57 x 3.15]	0.15 [0.33]
		155B4215	80 x 80 [3.15 x 3.15]	0.18 [0.40]

PVRES panel mounting plate

PVREL joystick

PVREL product image

General

PVREL is an electric remote control lever made in weather-resistant plastic.

PVREL is for easy mounting in operating panels.

PVREL is characterised by:

- IP 67 enclosure
- low operating forces
- robust construction
- small dimensions

Proportional function

The PVREL remote control levers contains a potentiometer for the control of one proportional function.

Variants

The PVREL series contains four variants. These can be ordered with or without neutral position switch.

Standard

Spring-centred remote control lever.
PVREL series basic model.

Hold function

Spring-centred with hold function. The remote control lever functions as the basic model, but by rotating the top of the handle the centre position can be displaced and a constant control signal is given. The remote control lever can still be activated from its set centre position as normal, but when released will return to its set centre point.

PVREL joystick

Neutral lock

Spring-centred with neutral position lock. The neutral position lock can be released by lifting the release ring under the handle. When the lever is returned to neutral position after manoeuvring, the neutral position lock will again engage.

155B344.10

Float position

Spring-centred with float position control. The remote control lever normally has proportional regulation in both directions, but with mechanical limitation in one direction to 3/4 of the normal activation range. The final 1/4 is used for float position control. Access to the float position control is gained by lifting the release ring under the handle and moving the lever out to its float position. Here, on releasing the ring, the remote control lever becomes locked in float position. Return from float position is gained by again lifting the release ring and bringing the lever back to the proportional range.

155B345.10

Installation

Correctly placed, the PVREL can comply with the grade of enclosure IP 67 above the mounting flange.

Characteristic

Signal (U_s) as a function of the lever angle

4.0 N [0.899 lbf]
7.7 N [1.731 lbf]*

2.4 N [0.540 lbf]
3.4 N [0.764 lbf]*

4.0 N [0.899 lbf]
7.7 N [1.731 lbf]*

Products we offer:

- Bent Axis Motors
- Closed Circuit Axial Piston Pumps and Motors
- Displays
- Electrohydraulic Power Steering
- Electrohydraulics
- Hydraulic Power Steering
- Integrated Systems
- Joysticks and Control Handles
- Microcontrollers and Software
- Open Circuit Axial Piston Pumps
- Orbital Motors
- PLUS+1® GUIDE
- Proportional Valves
- Sensors
- Steering
- Transit Mixer Drives

Danfoss Power Solutions is a global manufacturer and supplier of high-quality hydraulic and electronic components. We specialize in providing state-of-the-art technology and solutions that excel in the harsh operating conditions of the mobile off-highway market. Building on our extensive applications expertise, we work closely with our customers to ensure exceptional performance for a broad range of off-highway vehicles.

We help OEMs around the world speed up system development, reduce costs and bring vehicles to market faster.

Danfoss – Your Strongest Partner in Mobile Hydraulics.

Go to www.powersolutions.danfoss.com for further product information.

Wherever off-highway vehicles are at work, so is Danfoss. We offer expert worldwide support for our customers, ensuring the best possible solutions for outstanding performance. And with an extensive network of Global Service Partners, we also provide comprehensive global service for all of our components.

Please contact the Danfoss Power Solution representative nearest you.
